

SPRINGTIME IN YOUR HOME AND GARDEN

Burning bright at Hale & Co

HALE & CO have stocked and supplied solid fuel fires and accessories for over one hundred years. Our experienced team are always on hand to assist and answer your questions. At our Stove show on Friday February 26th you will be able to see a selection of contemporary stoves from Terma Tech and meet a number of manufacturers' representatives.

Today's wood burning stoves combine traditional or modern looks with state of the art technology. Whether made out of steel or cast iron, they are "clean burning" or "air wash" and can often be used in 'smokeless' areas.

Throughout the day you are welcome to experience the unrivalled taste of freshly cooked food produced on our Rayburn cooker.
