More than just a Builder's Merchant

ONE OF the largest suppliers of products to the building and home improvement sector in the Forest of Dean and surrounding areas, Hale & Co. announces the opening of a new kitchens and bathrooms showroom.

Customers now have the opportunity to see an unparalleled showcase of kitchen and bathroom designs. The new exquisite showroom, displaying traditional and contemporary stylish interiors from some of the leading manufacturers and brands in the industry with innovative and decorative fixtures, provides the ideal inspiration to explore, design and create. With walk-through displays and settings to suit every home and budget, the showroom also includes the latest granite and laminate counter-top materials, colours and finishes, built-in appliances, decorative hardware and so much more.

Whether you are a customer looking for a new build kitchen or bathroom, or a member of the public looking, they will have something to suit. They maintain traditional high standards of customer service while embracing the latest technology. Their experienced design team make home visits to measure for kitchens and bathrooms, discuss your requirements and produce full computerised plans and costings to help you make the best choice.

They hold a number of informal Rayburn cookery demonstration evening events in their studio to demonstrate the qualities and versatility of Rayburn products. Hale & Co operates out of a seven acre site near Drybrook.

Hale & Co. prides itself in providing a speedy and efficient delivery service via its fleet of 11 variously sized vehicles. The size and design variance of the company's vehicles gives it a unique ability to deal with differing load and access limitations. The delivery service is generally free within the local area and features crane-offload and tail lift facilities throughout.
